actors are much pleased at the prospect of the passage of the bill which has been introduced at Albany to protect them against dishonest and irresponsible managers. Only actors and managers know how easy it is to get actors to the other end show how easy it is to get actors to the other end of the country, without any guarantee worth mentioning that they will be brought back, and few except actors realize how hard it is to get back or to get relief of any sort, when the venture fails and the manager does not see it to keep faith with the actors or to help them in any way. Nor is it generally understood how difficult it is to bring any punsiment on the dishonest manager or to extract satisfaction of any sort from him. The law now proposed cannot altogether cure the evil, but it may somewhat lighten it.

George W. Lederer telegraphed from London yesterday that he had just signed the contract with the Shaftesbury Theatre management for the pres-entation of "The Belle of New-York" at that house, with the Casino cast and scenery, on April 8.

MUSIC.

"DIE GOETTERDAEMMERUNG." The last of the three Nibelung dramas was performed at the Metropolitan Opera House last night by the Damrosch-Ellis forces. Perhaps it would he nearer the truth to say the Damrosch forces, for we are inclined to believe that the end of the enterprise in which Mr. Damrosch is chiefly interhaving dominated the Philadelphia season. "Wal "Slegfried" and "Die Götterdämmerung ktire. having now been given, it is possible to say some thing about the representations as a whole. I would be most agreeable to set the pegs high in uch a discussion, for it was a laudable undertaking to produce the dramas which have had so much to do as they with the formation of the present

tropolitan Opera House; but, unhappily, the representations have not marked progress, but the reverse. In the scenic department the retrogression has been so great that the greatest kindness is dis played in the completest silence on that point. The silence, indeed, ought to be like that Egyptian the other hand, there have been some extremely praiseworthy features in the representations. Mme Nordica, who has been the Brünhilde of the three dramas, has increased her artistic stature most decidedly in the estimation of the knowing. She was greatly handleapped at the outset by being the first time before an audience to whom the best traditions of the part were as familiar as a nursery tale. Had she been less of an artist she would have been less embarrassed in contemplating her task, and would therefore have trusted more to her instincts, which are splendidly sound, as the seque proved to the satisfaction of the most confirmed fault-finder. The confidence in her own powers, inspired by greater familiarity with the part, made her second Brünnhilde on last Wednesday night a that could be supplied by intellect and feeling, its only shortcoming being the physical one, for v she ought not to be faulted. In point of fact, her question. Must Brinnhilde be the Amazonian giant that she is popularly conceived to be? Is it necessary that she should transcend all our amiable notions of womankind? Is she any the less human because she is supposed to be divine, or any the prived of her divinity by a chastisement which is long as there are people who think that the standard of Wagnerian singing is purely a question o floodgates of the orchestra must be opened to their fullest extent at all times, some criticism, professional as well as lay, will demand that Brünnhilde he an emotionalized foghorn. But it does not follow that their conception is correct. Imagine every thing brought into the proper perspective, and the ideal Brünnhilde will be a woman with womanly attributes, raised to their highest power by dramatic stress, it is true, but divinely femining grew out of her assumption that the impersonation had to be of the heroic stature given to it by some of her phenomenally gifted predecessors. strove to paint on broad lines, as, indeed, she had to do in order to preserve harmony in the picture and therefore she disclosed, ever and anon, the fact that nature had not given her an equipment for such a performance. Yet in "Siegfried," and especially last night in "Die Götterdämmerung" she sang and acted in a style that was thrilling, and created a wish that she might be heard in a

adjusted performance. Herr Kraus was cast in the old-time vocal mould. So far as mere weight and purity of voice are concerned he has had no equal here in the character of Siegfrieid. The part, moreover, called out the finest qualities that he has displayed as an actor. He was a delight to those who love a sound, pure tone produced with that ease which tells of unlimited reserve force. There is a want of romantic feeling and picturesqueness in his impersonation, but in song and action his Siegfried is so much better than anything else that he has done that we can easily fancy him having everything his own way on the German-Wagnerian stage five years. In "Stegfried" Herr Hans Breuer distinguished himself in declamatory singing and in character acting as Mime. night's performance besides Mme. Nordica and Herr Kraus, the performance most entitled to praise Honolulu, Feb. 3, via San Francisco, Feb. 11.—It is was that of Mr. Fischer as Hagen. The cast was

SENATORS IN THE CITY.

Senator Thomas C. Platt came to this city from Washington last evening, and when he was seen a the Fifth Avenue Hotel he said he had come to attend to private business, and did not expect to meet any members of the Legislature or talk about Lemuel E. in Washington, and none of the politicians about the hotel could explain why he had failed to go to Albany and talk with Governor Black about primary bills new before the Legislature.

Senator Stewart, of Nevada, came to the city last evening also, and was at the Fifth Avenue Hotel for a time. He said that the De Lôme incident reminded him of a small terrier trying to worry a big mastiff. De Lôme was too small to insult the President of the United States, he said, and the only interest in the performance of the Spanish Minister was centred in the possible effect which that performance might have upon the Cuban cause.

SENOR DUPUY DE LOME'S LETTER.

SATURATED WITH TREACHERY.

From The Haltimore American. From The Baitimore American.

The importance of the letter, however, consists in its general tone rather than its personal abuse. It is saturated with treachery to the United States. Such and such things have been done not because there is anything in them, but because they will hoodwink the United States. "Agitate the question of commercial relations, if only for effect, and send a man of importance to make a propaganda among Senators."

The precedents are altogether clear in such cases it matters not whether he spoke officially or in his private capacity, for an insult is an insult, and it he is guilty of such a breach of diplomatic conduct his relations with the Administration must cease His official of really committed—is far worse than that of Lord Sackville-West, the British Minister, who was sent home by President C eveland.

DISCREDITS DE LOME, NOT M'KINLEY. From The Buffalo Commercial

From The Buildio Commercia.
It is to De Lome's, and not to Mr. McKinley's, discredit that the Spanish Minister regards the President as a "coarse," "weak," "low" politician, who is trying at once to "pander to the rabble" and to "leave a door open" for Spain. The American people know and trust their President, and are quite indifferent to this Bourbon gentleman's pri-

and it also showed him to have been the victim of persecution since he began his honest en-deavor to probe the truth. At the conclusion of his evidence Colonel Ficquart met with an enthusiastic reception from the public. There were cries of "We Picquant" and "Vive l'Armée!" in which many of the law-yers joined. The high military officers were visibly annoyed at the effect of Colonel Pic-quart's testimony.

Colonel Picquart's evidence was of the highest importance, and thus for is the great event of

importance, and thus far is the great event of the trial. He gave it with passionless, pitlless completeness, covering the whole ground from the moment he was authorized to investigate the rising suspicion against Comte Esterhazy until he found himself a prisoner at Mont Valerien. The impression it left was that everything had been done by General Politeux and Major Rabeen done by General Politeux and Major Ravary to shelter Comte Esterhazy from the consequences of glaring breaches of discipline and honor, while Colonel Picquart was discoved, packed off to Tunis and eventually arrested.

M. Zola's carriage on leaving the Palais de Justice was followed by a knot of people shouting "Death to Zola!" who could be heard through the carriage windows exclaiming "The cowards!" The police dispersed a thousand people who were burning pro-Zola Journals on the Quai de la Megisserie. Many agrests were made, but the persons arrested were quickly liberated.

IN HONOR OF THE ARMY AND NAVY.

BRILLIANT RECEPTION GIVEN AT THE WHITE HOUSE.

Washington, Feb. 11 (Special) - The White House never presented a more brilliant picture than at the reception given by the President and Mrs. Mc-Kinley this evening in honor of the Army and Navy. The splendor of color was everywhere, with the American flag as the chief feature of the decorations. Probably the Stars and Stripes never had such a show in the White House before. The departure from the usual floral decoration gave a beauty and sentiment that pleased the eye and touched the heart, adding something of a Fourth of July atmosphere that made everybody look as happy as possible. At the same time the skill of the florist reached its perfection in the arrangement of Ascension lilles, roses and other rare blos-soms, used in profusion, with the rich green of tropical foliage.

In the big East Room the Stars and Stripes, were hung as window curtains, and in graceful folds from the ceilings and above doorways and pictures. from the ceilings and above doorways and pictures. There were floral anchors of solid rosebuds for the Navy, and stars of roses for the Army, while banks of Ascension lilies filled the mirror shelves. The flag of the Secretary of the Navy was stretched above the doorway at one end of the corridor leading from the East Room to the consematory, and at the opposite end was the flag of the Secretary of War. All along the corridor the walls were hung with flags and floral gar-lands. The Marine Band played in the open conservatory, alternating with the 4th Antillery Band in the main hall. The arrangements for the comfort and pleasure of the guests, even to the smallest detail, were admirable, and as no moment was there any sign of the old-time crush.
